Dear Mr. Gramlich:

Re: Tentative Approval, Mining and Reclamation Plan, Longshot Mine, PRO/019/018, Grand County, Utah

Your submittal received June 16, 1986 has been reviewed and satisfies the remaining items outlined in my letter of June 5, 1986. The Division hereby grants tentative approval for this operation.

An executive summary of your proposed mining operation and reclamation plan will be presented before the Board of Oil, Gas and Mining during the regularly scheduled meeting on July 31, 1986. The Board will be asked for an approval of the amount and form of the reclamation surety at that time.

A public notice will be forwarded to the appropriate newspapers for publishing. If no adverse comments are received during the 30-day public comment period, the Division will be able to grant final approval.

As noted in my June 5, 1986 letter, you will need to post a bond for the difference between the Forest Service bond of \$1,900 and the Division bond requirements of \$3,611. Would you please ensure that a properly executed bond, in the amount of \$1,711, is received before July 21, 1986. Acceptable forms of surety are:

- corporate surety (forms enclosed)
- automatically renewable certificate of deposit
- cash
- irrevocable letter of credit
- self-bonding (applicant must qualify).

If you have any questions on the bond please call Pam Grubaugh-Littig at 538-5340.

Thank you for your cooperation in this matter.

Sincerely,

L. P. Braxton
